Extended hours: Sept. 28. Oct.1, and Oct. 5, 2009
8:00 am -7:00 pm

NOTE: Early voting is one of two ways in which a registered voter of Rutherford County may vote before the actual election day. The second way for a registered voter to vote early is called by mail voting.

Both early voting and by mail voting are for the voter's convenience. These two voting choices differ in that to vote by mail, the voter must have a statutory reason. On the other hand, to vote during the early voting period, the voter may vote purely for the sake of convenience.

For each election, early voting begins 20 days before the election and ends 5 days before the election.

There are many advantages to voting early, namely being able to choose a day during the early voting period that best fits the voter's schedule and the voter being able to change his or her address of registration and vote at the same location.

If you have questions regarding the election process please call the Rutherford County Election Commission Office at 615-898-7743. Election information is available on the World Wide Web at www.rutherfordcounty.org/election or by e-mail at election@rutherfordcounty.org.
